Meeting Overview

The **International Conference on Cancer in Geographically Isolated Populations (ICCGIP)** is a new biennial event bringing together experts in oncology, public health, and healthcare policy to address cancer care challenges in remote and underserved regions, with a focus on **Small Island Developing States (SIDS)**.

The inaugural edition will be held in **Saint Lucia** and will explore the theme:
"Medical travel for cancer care: navigating access, quality, and equity."

ICCGIP is a unique platform to:

- Share research and best practices
- Explore innovative models of care
- Build collaborations across isolated settings

Call for Abstracts - Now Open!

We are pleased to invite you to submit an abstract for **oral or poster presentation** at ICCGIP 2025.

Deadline: July 4, 2025

[Submit your abstract here](#)

This is your opportunity to **share your work** and **contribute to innovative solutions** that address **cancer care disparities in isolated or underserved settings**.

We welcome research related to:

- Cancer control strategies in SIDS and remote regions
- Medical travel and access to specialized oncology care
- Health systems, policy, and equity
- Social determinants of cancer outcomes
- Digital health and AI applications
- Capacity building and collaborative research
- Biomarkers, etiology, and innovative methods

The **conference theme** for this first edition is:

“Medical travel for cancer care: navigating access, quality, and equity”

A **Best Abstract Award** will be presented to recognize outstanding contributions.

What's Next?

As a subscriber, you'll receive updates on:

- Conference dates and venue details
- Program highlights and keynote speakers
- Travel information and accommodation
- Registration opening

We look forward to seeing you in Saint Lucia for this pioneering conference!
